ABOUT WORKSHOP

The 9th edition of the workshop *New Materials for the Electrochemical Recognition of Inorganic and Biological Species* will be organized by ***Dunărea de Jos* University of Galați** in collaboration with **the National University of Science and Technology *Politehnica* Bucharest**, with the support of the **Romanian Society of Chemistry** and the **Romanian Academy of Technical Sciences**. As in previous editions, the NOMARES 2026 workshop program will include plenary lectures, oral communications, and a poster session. The 2026 NOMARES edition will take place within **the 14th edition of the International Scientific Conference of Doctoral Schools**, from **11 to 13 June 2026** (https://cssd-udjg.ugal.ro/). **Virtual participation is also possible.**
The official language of the workshop is **French**, but contributions in **English** are also accepted.

WELCOME

Galați is one of the oldest cities in Romania, a port located on the left bank of the Danube, at the entrance to the Danube Delta. The first documentary evidence dates back to the 15th century, but in antiquity the Dacians and later the Romans established continuous habitation in this area, notably through the Roman fort of Tirighina-Bărboși. During the Middle Ages, Galați was the most important port of the Principality of Moldavia. In the 19th and 20th centuries, the city modernized and prospered, becoming an important international commercial hub, Porto-Franco, with numerous European consulates and a diverse community (Hungarians, Greeks, Jews, Armenians, Italians). The University of the Lower Danube (UDJG) in Galați is a highly regarded educational and scientific research institution and a member of the Agence universitaire de la Francophonie (AUF). Located on a port, Galați is a hub for the agri-food industry, particularly for agricultural products of plant and animal origin. UDJG offers programs in shipbuilding, port and maritime operations, food processing, aquaculture technology, and refrigeration technology.
Direct transfers from Otopeni Airport to Galați can be arranged.

INSTRUCTIONS FOR ABSTRACT PREPARATION

The abstract (one page) must be written in **French** and also in **English**. The abstract template is attached and should be sent to lorentz.jantschi@gmail.com .

PUBLICATION

Participants are invited to publish their original research in French or English in the Scientific Bulletin of the University *Politehnica* of Bucharest, with an indication that the work is submitted *for the NOMARES workshop*, following peer review (www.scientificbulletin.upb.ro). There are also opportunities to publish in English in more specialized journals, such as *Molecules*, in the special issue "Characterization of Organic Ligands: Correlations between Electrochemical Results and Other Methods."

PRESENTATION

The conference will bring together Romanian and international universities, as well as renowned specialists in national and international scientific research, along with scientific and professional organizations.
It will provide an opportunity to present new results, engage in discussions, and exchange experiences to address global challenges related to applied electrochemistry during oral and poster sessions.
SMEs are invited to become sponsors of this international conference and to present their products, demonstrating their expertise and the excellence of their technologies.
We hope that our conference will be a prestigious international event that all participants will remember with emotion. However, we are aware that only your participation and involvement can make this possible.
We look forward to meeting you and sharing an excellent scientific experience together!

IMPORTANT DATES

March 25, 2026 – Abstract submission deadline
April 1, 2026 – Notification of accepted papers
April 25, 2026 – Application deadline for the Young Researcher Award
May 15, 2026 – Final Program of the conference
June 11, 2026 – Conference opening
June 13, 2026 – Conference closing

REGISTRATION

Only registered delegates may take part in the scientific sessions and the social program. Participants are kindly requested to complete the registration form and return it by e-mail before **March 25**, 2026.
