

Journal of Engineering Sciences and Innovation (JESI)

Volume 1, Issue 1 / 2016

Contents

A. Mechanics, Mechanical and Industrial Engineering, Mechatronics

Valeriu V. Jinescu

Fatigue life prediction for simultaneous cyclic loading with blocks of normal stresses and shear stresses..... 1

F. Chiriac, L. Drughean, A. Șerban, A. Ilie, R. Dumitrescu

Romanian research on refrigeration and air-conditioning..... 17

Năstăsescu Vasile

FEM OR SPH ? 34

Negrean Iuliu

Advanced notions and differential principles of motion in analytical dynamics..... 49

B. Electrotechnics, Electronics, Energetics, Automation

L. Bedogni, L. Bononi, A. Borghetti, R. Bottura, A. D'Elia, M. Di Felice, F. Montori, F. Napolitano, C.A. Nucci, T. Salmon Cinotti, F. Viola

An integrated traffic and power grid simulator enabling the assessment of e-mobility impact on the grid: a tool for the implementation on the smart grid/city concept..... 73

C. Computer Engineering, Information and Communications Technology

Pop Eugen, Croitoru Victor, Popa Mihai

E-banking platform for mobile users..... 90

D. Chemical Engineering, Materials Science and Engineering, Natural Resources

Fodor Dumitru

Current concerns related to the research and exploitation of useful mineral deposits..... 101

Solea Liviu Cătălin, Georgescu Constantin, Deleanu Lorena

Viscosity dependence on shear rate and temperature for olive
and soybean oils **110**

Ilca Ioan

The theory and practice of heating quality steel ingots..... **120**

Alexandru Serban, Gabriel Năstase

Romanian scientific research in the field of cryogenics..... **131**

E. Civil Engineering and Transportation Engineering

Victor Popa

Expertise of a cable – stayed bridge under construction
in Romania **140**
